ADVOCACY

WE ARE A
REALTOR®
OFFICE

*We must be involved
in politics to protect
your interests*

ADVOCACY

Over one million real estate professionals from around the United States have joined forces to create the REALTOR® Association; pooling our resources as an entity to represent ourselves & homeowners in the Legislative, Regulatory, Licensing & Political world.

The REALTOR® Association is one of the largest, most effective lobbying trade organizations in America.

In order to maximize our effectiveness we have REALTOR® offices in each local jurisdiction, on the State level & National offices.

ADVOCATING ON YOUR BEHALF

TAXES

The REALTOR® Association represents you and your business against taxes on your commissions, undue transfer taxes, point of sale fees and to encourage homeownership by limiting property taxes on homeowners. We believe that homeowners and real estate professionals already pay their fair share and should not be singled out as a tax target simply because it is a large transaction.

REGULATORY

This includes water rights, land use, zoning, flood maps, financing, Federal Housing Programs, Broker responsibilities, and management. Everything from the forms you use to the open house signs you put out, is regulated and your Association is monitoring these regulations and advocating for your interests.

LICENSING

You are represented at the Real Estate Commission and every licensing requirement or continuing education mandate is reviewed by your Association.

LEGISLATIVE

Your Legislative team is monitoring every bill introduced and evaluating the impact of the bill on the real estate industry. We promote good legislation and spend our considerable resources to amend or defeat harmful legislation.

POLITICS

REALTOR® POLITICAL ACTION COMMITTEE

RPAC is a bipartisan organization and the largest PAC in Washington State. Our goal is to endorse political candidates who share REALTOR® Party values and prioritize a strong real estate economy in Washington, regardless of their political party affiliation.

We support candidates who strongly advocate for the real estate industry and help them get elected. Our involvement spans across all political races in the nation, except for the Presidency, and we have a successful track record.

Our actions are approved by the members elected to represent you at the Association and are always in the best interest of the industry, even if not every member agrees.

We have formed alliances with other industries that share our goals, such as transportation, accommodating growth, business, parks, and the environment.

Our political activities are funded by member contributions, fundraising events, and individual donations, with \$35 of annual dues going towards this fund unless members prefer it be used for other issues. Members can participate in the decision-making process and donate additional funds to the PAC if they choose to do so.

RECENT LEGISLATIVE SUCCESSSES

Reformed Agency Law to be more consumer friendly and protect REALTORS®.

Streamlined permitting and design review processes to speed up development.

Prevented another proposed REET increase.

Protected leasebacks by exempting them from the Residential Landlord Tenant Act.

Allowed Accessory Dwelling Units (ADUs) within Urban Growth Areas.
